

FOR IMMEDIATE RELEASE

Voltamac Home Health Services Announces Launch

Patients throughout New Jersey will have access to premier home health services

HACKENSACK, NEW JERSEY, AUGUST 4, 2015 - Voltamac Home Health Services launched on August 4, 2015, and will offer patients across New Jersey a new option for premier home health services.

Voltamac Home Health Services is dedicated to delivering contemporary health care services to each and every patient, offering services including occupational therapy, physical therapy, speech therapy, and more.

The New Jersey home health company provides a highly skilled nursing staff, as well as professional, qualified medical social workers, home health aides, and more. Non-skilled medical care, including personal care, homemaking, and companionship services, are also available.

In addition, Voltamac Home Health Services offers personalized telehealth solutions, including remote patient monitoring, EMR (electronic medical records), automated medication dispensers, wearable devices, communication

and wireless tools, and more.

All services offered by Voltamac Home Health Services are designed to be cost-efficient and personalized with an objective of offering the very best services for each patient.
